

## TRIUMPH TR4A FIRST OWNER COMES TO LIGHT

✉ Paul Anderson

### Dear Editor

Through my restoration website of my car DMW 903C ([www.tr4a.weebly.com](http://www.tr4a.weebly.com)) the original owner of my car, Harry Liddell, got in touch with me (I guess he must be 92 now). He ordered the car from new back in 1965. Harry was an RAF Officer based at Lyneham and he chopped in his TR3 for £250 to buy the TR4A from Quantocks, a standard Triumph deal Based in Swindon.

Amazingly he also had the original purchase invoice and receipt for his cheque which he has kindly given to me to stay with the car. What the receipt has proved is that our car is a matching numbers car as the Heritage Certificate had another engine number listed.

The pictures attached are Harry Liddell with his new Triumph TR4A, the original purchase receipt and how the car looks now after restoration. I have also attached a picture of Quantocks Garage, Swindon from back in the day. (I am sorry I do not have these in any better resolution at present).

Harry and myself are getting together so he can see and go for a drive in his old car.

*Fantastic Paul thanks for sharing. Harry is looking very smart and clearly proud as punch with his new purchase!*
