Walnut veneer kits

The wooden dashboards used in Triumph sports cars of the sixties and seventies tend to suffer from exposure to the elements which can lead to cracking varnish and lifting veneer. Damaged dashboards can be easily replaced with one of our high quality, real wood veneer panels. Available with a choice of veneers and finishes: Crown veneer is similar to that used by Triumph during production of the TR5-6, alternatively burr walnut is available. Both are available in either matt or gloss finish. For full details of dash fittings refer to the Restoration section.

Classic leather seats

Our handcrafted leather faced Classic seats have been designed to provide the ultimate in driver comfort with styling to complement the interior of your TR4-4A. The seats feature a reclining back which has been shaped to give improved lateral and lower back (lumbar) support, and the squab has been designed to give better upper leg support making your TR a more comfortable place to be, especially on long journeys. They feature height adjustable headrests for added comfort and safety.

They are available in a choice of either a smart vertical or horizontal pleated design and trimmed with leather faces on the base and squab with vinyl on the sides and back. These seats have been designed to easily fit the TR and allow clearance for the folding hood frame. They are suitable for all soft top, hard top and 'Surrey' top equipped cars and fit to the original 'H' frame seat runner. Supplied in pairs, fully assembled and ready to fit. Available in a range of colours.

Securon replacement seat belt kits

Securon This is our range of suggested Securon replacement seat belts to best suit TR2-4A models. All Securon seat belt products are 'E' approved for road use.

As early TRs were not originally fitted with seat belts it is essential that the belts be fitted carefully and that the correct hardware is used. Each kit contains suitable bolts for each mounting point, but you will need to use the reinforced nut plates (Part No: TT7968) where necessary.

Static seat belts

This can be bolted to the upper mounting on the wheel arch, the end of the webbing is retained at the sill mounting, and the stalk is fitted to the tunnel. Once positioned the strap can be adjusted for length and fit on the over-shoulder section of the belt.

Static seat belt kit - black SBS300/30 £23.95
Static seat belt kit - red SBS300/30RED £35.70

Automatic seat belts

The reel should be bolted to the lower inner side of the rear wheel arch and the guide at shoulder level on the wheel arch. The end of the webbing is retained at the sill mounting, and the stalk is fitted to the tunnel. The reel must be mounted vertically for the mechanism to operate correctly. This is the recommended inertia reel seat belt mechanism as it allows clearance for the hood frame when folded.

Automatic seat belt kit - black SBS500/30 £40.96
Automatic seat belt kit - red SBS500/30RED £63.95

Seat belt extender

This can be used to safely extend the seat belt if required. It should only be bolted to the sill mounting position and then bolted to the eyelet on the end of the seat belt. It must not be used at any other mounting point. 'E' approved for road use.

Seat belt extender SBS227 £8.26

Period style seat belt

This period style seat belt features a chrome catch and fittings. Note: Not 'E' marked, requires plates TT7968 and bolt spacer kit TT7969.

Posters and prints

Commemorative limited edition print

This specially commissioned limited edition print commemorates the 21st Anniversary of the TR Register. The picture is complemented by a pictorial mount depicting some of the more modern competition TRs.

Ken Richardson - then head of the Standard Triumph Competitions Department, signed each numbered print together with the artist, Lawrence Bold-de-Haughton. The full colour 24 x 36 print has been produced to the highest standards as specified by the Fine Arts Guild and is strictly limited to 850 prints worldwide.

RetroSound radios

The RetroSound range of radio & MP3 players maintains the original 'twin knob' (DIN-D) style mounting required for many classic cars. Music can be played from external sources such as iPods, USB flash drives & SD cards, all connected out of sight.

Model One

This is the top of the RetroSound range. The Model One is available with a choice of black or chrome display surrounds and has a full range of features:

- Rear mounted USB, SD card & auxiliary input leads (0.5m long)
- Front mounted mini-jack input in display surround
- RDS FM capable tuner - AM/FM PLL tuner with 30 presets
- 100W x 4 (50W x 4 RMS) integrated amplifier, pre-amp outputs - with fade and balance
- Versatile "InfiniMount" adjustable shaft/bracket system
- Daylight compatible wide viewing angle LCD display
- Display shows MP3/WMA track names & RDS data
- Separate power amp and aerial switching leads and RF remote control
- 2 year manufacturer's warranty

Zuma

This new Zuma radio offers a stylish redesign to RetroSound's entry level unit. The redesign features retro-styled buttons, a wider high resolution LCD screen & fascia design giving a more classic look to the unit. It also features rear mini-jack and USB input for MP3/WMA playback.

Fitment note: The car must be negative earth. These units are supplied without a faceplate & knob kit. Please check website for full range and spec.

RetroMod speakers by RetroSound

The RetroMod range of speakers from RetroSound has been designed to compliment their range of Classic radios and have been manufactured to meet the demands of modern high performance amplifiers.

Dual voice coils (DVC) speakers

This system allows for 2 stereo channels (left & right) to be connected to the same single speaker. This means that originality can be maintained on cars where a single speaker was fitted in the centre of the dash or rear shelf, providing full stereo sound from a single speaker. These speakers are supplied individually without mesh grilles, to fit existing mountings.
